

# CUMULATIVE INDEX 2001

## Volume 45

---

January	NEW TECHNIQUES IN ESTHETIC AND RESTORATIVE DENTISTRY, pages 1-216
April	FORENSIC ODONTOLOGY, pages 217-432
July	WOMEN'S ORAL HEALTH, pages 433-617
October	DENTISTRY'S ROLE IN THE MANAGEMENT OF SLEEP-RELATED BREATHING DISORDERS, pages 619-895

---

Note: Page numbers of issue and article titles are in **boldface** type.

- Abuse. See also specific types of abuse.  
 domestic violence, and neglect, role of dentist in recognition and reporting of, **343-363**  
 psychological effects of, 482-483
- Acid etching, and bonding, 32-33  
 biologic acceptance of, 33-34
- Acoustic reflexion, 720, 722-723  
 measurement of upper airway using, 766
- Adenotonsillectomy, and obstructive sleep apnea in children, 832-833
- Adhesive systems, acetone or ethanol as solvent in, 10  
 bifunctional molecules used in, 9  
 enamel etching to receive, 8  
 instrumentation of dentin for, 8-9  
 total etch for, 9  
 unsupported collagen for, 9
- Adhesives, dentin. See *Dentin adhesives*.
- Adolescence, and puberty, conditions of women during, 585-586  
 dental strategies during, 586-587  
 nutritional strategies during, 587-588  
 oral cavity of females during, 514, 545, 585-586
- Adulthood, older, maintenance of oral health during, 591-597  
 young, oral cavity of females in, 514-516, 588-591
- Adults, caries prevention strategies for, 585  
 dental strategies for, 590-591  
 sleep-disordered breathing in, 652-653
- Aesthetic dentistry, and restorative dentistry, new techniques in, **1-212**
- Aging, lifestyle factors influencing, 559  
 mitochondria-related theory of, 462  
 societal factors influencing, 556-557  
 visual signs of, 559, 560
- Air abrasion, aluminum oxide dust generated by, 201  
 aluminum oxide particles in, 198-200  
 for removal of decay, 192, 196, 197, 198-199  
 lasers and, **189-206**  
 preparation of cavity using, 201-205  
 to reduce sound of drill, 190
- Airway, evaluation of, in sleep disorder, 718-721  
 nasal, surgery of, in snoring and sleep apnea, 872  
 upper, anatomy and physiology of, 734-735  
 anatomy of, 725-731, 760-761, 762, 763  
 associated with snoring, obstructive sleep apnea and, **715-732**  
 dynamic imaging of, 777-781  
 evaluation of, 867-870, 871  
 imaging modalities for, 763-765  
 imaging of, clinical utility of, 789-790  
 normal, 734, 735  
 obstruction syndrome of, and obstructive sleep apnea, 649  
 sleep disorders associated with, 735-738  
 state-dependent imaging of, 781-783
- Alcohol consumption, among women, 515-516  
 dental practitioners counseling on, 572-573

- Alcohol consumption (*Continued*)  
 minimizing of, 572-573
- Aluminum oxide particles, in air abrasion, 198-200
- Amalgam, as filling material, 117
- Amenorrhea, in anorexia nervosa, 493  
 in female athlete triad, 537
- American Academy of Forensic Science,  
 odontology section of, 420-421  
 pathology/biology section of, 219  
 physical anthropology section of, 218-219
- American Academy of Sleep Medicine, 639, 857
- American Board of Forensic Odontology, 420, 421-422  
 code of ethics of, 412  
 guiding principles of, 412
- American Board of Sleep Medicine, 639
- American College of Forensic Examiners, 422
- American Dental Association, alternative  
 matrix resins and, 54  
 and contact wear behavior of resin-based composites, 53  
 on resin-based composites, 53  
 polymerization initiators and, 54  
 stress-bearing and cuspal replacement and, 54
- Anatomic features, familial aggregates, and ethnicity, sleep-disordered breathing and, 648-649
- Anorexia nervosa, 491-492, 515  
 amenorrhea in, 493  
 definition of, 492-493  
 distorted perception of weight in, 493  
 fear of weight gain in, 493  
 history of, 492  
 in female athletes, 534-536  
 medical consequences of, 494-495  
 prevalence of, 493-494  
 subtypes of, 493
- Anterior guidance, and anatomic functional harmony, orthodontist in development of, 177-178  
 determinants of, 176  
 development of, 176-177
- Anthropology, physical, section of  
 American Academy of Forensic Science, 218-219
- Antibiotic therapy, for women, 589
- Antidepressants, sedating, in insomnia, 858
- Antihistamines, in insomnia, 856, 858
- Aphthous stomatitis, recurrent, stress and, 481
- Aphthous ulcers, recurrent, 586
- Apnea, definition of, 839
- Argon lasers, in oral surgery, 209
- Athletes, body art among, 527  
 women's oral health issues for, 439, 523-539
- Bacteria, oral levels of, stress and, 516
- Battered woman syndrome, 354-357
- Behavior modification, in sleep disorders, 739-740
- Behavior science, 218
- Benzodiazepines, 856-857, 861
- Binge-eating disorder, definition of, 497-498  
 medical complications of, 498  
 prevalence of, 498
- Bite injury, impressions of, 379-381  
 swabbings of, 379
- Bite mark(s), analysis of, case history of, 389, 390, 391, 392, 393  
 expert opinion support in, 388  
 general principles of, 366-367  
 investigator participation in, 368  
 metric, 385-386  
 overlay for, 385  
 preparation for legal system, 388-389  
 results of, 387  
 techniques and methods for, 385-386
- bruises associated with, 406-407  
 aging of, 373, 374  
 case involving, history of, 365-366  
 cases of, common legal arguments in, 403-404  
 changes in, over time, 372-373  
 classic appearance of, 371  
 composition of, class characteristics and, 369-370  
 individual characteristics and, 370  
 digital analysis of, and human identification, 327-342
- evidence associated with, collection of, 373-383  
 digital photography of, 376  
 epiluminescence of, 379  
 infrared photography of, 378  
 materials for collection of, 383  
 nonvisible light photography of, 378  
 photography of, 375-379  
 ultraviolet photography of, 378
- evidentiary value of, determination of, 371-372
- excision of, in deceased victim, 381
- identification of, application of scientific method to, 408-409
- in forensic dentistry, 365-397
- in forensic odontology, 225-226  
 case study illustrating, 226-227
- in living, special considerations in, 372
- metric analysis of, digital images for, 336-337
- nonmetric analysis of, digital images for, 334-335
- pattern analysis of, in three dimensions, 386
- recognition of, 369
- report writing and courtroom testimony concerning, 409-411

- skin as substrate for, accuracy of, 406  
 testimony concerning, scientific limitations of, 406-411
- Biters, possible, dental stone models of, 381-382  
 test or sample bites of, 382-383, 384-385
- Bitewing radiographs, as dental records, 295, 298-299
- Black fillings, 117
- Blepharoplasty, 560-561
- $\beta$ -Blockers, athletic competition and, 532
- Blood doping, athletic competition and, 534
- Body art, among athletes, 527
- Bonding, acid etching and, 32-33
- Bonding procedures, improvement in, 192
- Bone loss, in anorexia nervosa, 494
- Botulinum neurotoxin therapy, 566
- Breastfeeding, and oral health, 473-474
- Breathing, sleep-disordered. *See Sleep-disordered breathing.*
- Bruxism, and orofacial movements, during sleep, 657-684  
 classification of, 658, 659  
 definition of, 657-658  
 myofascial pain in, 696-697  
 psychologic factors in, 483  
 sleep, and upper airway resistance syndrome, 658-660  
 behavioral and cognitive approaches to, 673-674  
 clinical findings and diagnosis of, 669-670  
 dental approaches to, 672-673  
 electrophysiologic monitoring in, 671-672  
 management of, 672-675  
 neurochemistry and, 665-666  
 pathophysiology of, 664-668  
 pharmacologic approaches to, 674  
 prevalence and risk factors for, 664  
 psychophysiologic aspects of, 667  
 stress and, 481
- Bulimia nervosa, 491-492, 515  
 definition of, 495-496  
 history of, 495  
 in female athlete, 534-536  
 medical consequences of, 496-497  
 prevalence of, 496  
 prevention of weight gain in, 496
- Burning mouth syndrome, 593, 595
- Calcium, food sources of, 588
- Calcium hydroxide, for dentin bridge formation, 38, 40, 41, 42, 43
- Calorie requirements, of women, 578
- Cancers, oral, genetic influences on, 456-457
- in women, 596
- Care-seeking behavior, issues related to, 485-487
- Caries, dental, and breastfeeding, 473-474  
 development of, genetic susceptibility to, 444-445  
 in eating disorders, 501  
 in older adults, 595  
 microflora, and periodontal health, 474  
 strategies for prevention of, in adults, 585
- Casts, dentition, computer-generated overlay of, fabrication of, 339-342
- Centric relation, 174
- Cephalometrics, in obstructive sleep apnea, 870, 871
- Cephalometry, to examine upper airway, 767-768
- Ceramic restorations, case evaluated for, 127-129  
 clinical findings in, 130  
 evaluation of restorative objectives and patient's desires in, 139, 140-141  
 prosthetic phase in, 137, 139  
 responsibilities of dentist-technician team in, 132-138  
 smile design for, 130-131  
 treatment objectives in, 131  
 treatment plan for, 131-132  
 diagnosis and treatment planning for, 127-142
- Cheek augmentation, 564
- Chemotherapy, for teeth, 583
- Child abuse and neglect, case reports of, illustrating physical abuse, 349-352, 353  
 definitions associated with, 344-345  
 interviewing of possible victim of, 347  
 possible, reporting of, 347-349  
 recognition of, 346-347  
 reporting of, immunity from liability for, 349  
 statistics on, 345, 346
- Childhood, oral cavity of females in, 514
- Child(ren), craniofacial malformations in, obstructive sleep apnea in, 826, 877-878  
 obstructive sleep apnea in, 825-826, 876, 877  
 diagnosis of, 826-831  
 sequelae of, 833  
 treatment of, 833-834  
 post-sigh sleep apnea in, 821, 824-825  
 sleep-disordered breathing in, 651-652, 817-837  
 clinical syndromes associated with, 823-834  
 occlusive, sequelae of, 831-833

- Chin, augmentation or deduction of, 564, 565
- Chloral hydrate, 856
- Chromosome(s), 232
- homologous, 232-233
- sex, 233
- Cluster headache, autonomic nervous nervous system activation and, 690
- diagnostic criteria for, 689-690
- episodic, 690
- treatment of, 690
- CO<sub>2</sub> lasers, 207, 208
- Cognitive alertness, alterations in, 855-858
- Cognitive dysfunction, in occlusive sleep-disordered breathing in children, 831-832
- Color, of teeth, art of understanding, 157
- science of, 156-159
- shades of, and illusion, 155-172
- Color guide, for esthetic restorations, 166
- Compomers, 21-22
- flowable, 22
- Composite(s), 40-42, 44
- condensable, 15-17
- core buildup, 19-20
- direct placement of, improving of, 52-59
- reduction in technique sensitivity for, 52-59
- earliest formulations of, 49-50
- fiber-reinforced indirect, 17-18
- filler particle size in, 11-12
- flowable, 14, 15
- generic, 50
- historical considerations in, 49
- indirect, 17, 18
- new, 12
- packable, 15-17
- particles in, effect on shrinkage and abrasion, 51
- placement of, clinical technique for, 12-14
- polymerization of, reaction for, 51-52
- trans-enamel, to control shrinkage, 55-56
- visible light curing for, 52
- posterior, 15-17
- posterior direct, step-by-step technique for, 57-59
- application of ACID etchant for, 61-63
- application of dentin adhesive system for, 64
- application of flowable resin for, 64
- cavity cleansing and caries indicator for, 61
- control of polymerization shrinkage in, 64
- creation of occlusal anatomy for, 66-67, 68-69
- enamel surface cleaning for, 61, 62-63
- evidence-based, 59-60
- isolation with rubber or matrix band for, 61
- placement of composite in bulk, 64-65
- rounded adhesive margins for, 60
- transenamel polymerization in, 65-66
- posterior duct, contemporary, using state-of-the-art techniques, 49-70
- resin-based, American Dental Association on, 53
- shrinkage of, during polymerization of, 55
- surface sealants for, 13, 14
- types of, 50-51
- based on filler size, 11
- Composite resin cements, 18-19, 20
- Composite resins, polyacid-modified, 21-22
- flowable, 22
- Composite restorations, indirect, achieving clinical excellence with, 71-81
- materials for, 71-74, 75
- preparation for, 74-79, 80
- Compound overlay, digital imaging to create, 335-336
- Computed tomography, for imaging of upper airway, 768-769, 777-779
- Computer assisted dental identification, 309-325
- patterns of restorations for, 311-312
- program basics for, 310-311
- Computer Assisted Postmortem Identification System, 309
- advantages of, 313
- comparison algorithm for, 312
- development of, 312
- principles of, 312
- Computer-generated overlay, from dentition casts, fabrication of, 339-342
- Computer systems, for dental identification, 268
- Contact ring, selection and placement of, for tight anatomically correct interproximal contacts, 87-96, 97
- Continuous positive airway pressure, in sleep disorder, 741, 784-787, 797, 804, 832, 833
- Continuous positive airway pressure device, 841
- Core buildup composites, 19-20
- Coroner/medical examiner, forensic science and, 222
- Cowden syndrome, 448-454
- and other hamartosis, 454
- antioncogenesis in, 449
- malignancies in, 449
- mutation of inherited gene in, 449-450
- oral and facial manifestations of, 449

- Craniofacial anatomy, sleep-disordered breathing and, 646-648
- Craniofacial evaluation, in sleep apnea, 870
- Craniofacial malformations, obstructive sleep apnea in, 826, 877-878
- Craniofacial structures, upper airway soft tissue and, in obstructive sleep apnea, 771-783
- Criminalistics, 218
- Death certificate, 297
- Dental anxiety, effect of, and dental treatment, 480-481
- Dental care, access to, medical insurance coverage and, 542  
in long-term care facilities, 542-543, 547-548  
professional, for women, 584
- Dental caries. See *Caries, dental*.
- Dental examination form, postmortem, 259, 260-261
- Dental identification, antemortem and postmortem comparisons in, 263-266  
antemortem information for, 262-263  
comparative, 238  
benefits of, 240  
established through dental means, 238-240  
problems with, 241-242  
computer assisted, 309-325  
patterns of restorations for, 311-312  
program basics for, 310-311  
computer systems for, 268  
forensic dental consultation in, 255-256  
future issues in, 268  
phases of, 256  
postmortem examination in, 257-259  
equipment for, 255-256  
postmortem radiography for, 259  
preliminary examination in, 257  
principles of, 253-270  
process of, 255-266  
team organization for. See *Dental team, for identification*.  
using digital radiography, 337-338  
validation and reliability of, 266-267
- Dental injuries, sports-related, 524  
predictors of, 525  
prevalence of, 525-527  
prevention of, 527-528
- Dental patients, diagnosis of sleep apnea in, 797-816
- Dental profiling, reconstructive postmortem, 238, 242  
chronologic age and, 242-243  
cultural traits and, 245  
oral habits and, 244-245  
race and, 243-244  
sex and, 244
- Dental proportion(s), recurring esthetic, 145-146  
to design smile, 149-150  
using five dimensions to evaluate, 148-149
- Trubyte Tooth Indicator and, 144-145
- Dental records, bitewing radiographs as, 295, 298-299  
collection of, 294-295  
dental radiographs as, 295  
law enforcement agencies and, 294  
written records as, 295
- Dental schools, and medical schools, curricula of, external forces causing change in, 611-612  
requiring change, 609-610  
time needed for change in, 611  
women's health and, 607-609  
curricula of, women's health subject matter in, 436-437
- Dental stone models, of possible biters, 381-382
- Dental team, for identification, disaster mortuary response, 276  
of fatalities in Alfred R. Murrah Federal Building bombing, 285-290  
traditional, 275  
role in mass fatality incidents, 271-292
- Dental treatment, effect of dental anxiety on, 480-481  
self-concept and, psychosocial issues related to, 484-485
- Dentin adhesives, fifth generation, 11  
filled, 10  
for twenty-first century, 1-6  
fourth versus first generation, 2-3  
generations of, 1, 2
- Dentin bonding, best approach for, 5-6  
clinical failures of, rules to prevent, 5  
no etch approach to, 3
- Dentin bonding agents. See *Dentin adhesives*.
- Dentin bridge, formation of, calcium hydroxide for, 38, 40, 41, 42, 43  
need for, 40-42, 44
- Dentist(s), as expert in court, and attorney's knowledge of legal process, 406  
as forensic odontologist, mentor for, 405  
training and, 404, 405  
evidence collection by, in missing persons cases, 298  
for identification, why?, 237-251  
general, care provided by, 622-623  
interest in sleep disorders, 640  
review of collected materials by, in missing persons cases, 299-300

Dentist(s) (*Continued*)

- role in recognition and reporting of domestic violence, abuse, and neglect, 343-363
- shortfall of, as barrier to dental care, 606
- reasons for, 605-606
- visits of, by income and area of residence, 605
- Deoxyribonucleic acid. *See* DNA.
- Department of Health and Human Services, federal, survey of medical schools' women issues in, 603
- Depression, insomnia in, treatment of, 858
- serotonin and, 515
- Desmopressin, in Von Willebrand's disease, 459-460
- Developmental disabilities, 546
  - dental programming for patients with, 542-543, 547-548
  - oral health findings in patients with, 546
  - provision of treatment for patients with, 547
- Diet, maternal, enamel defects and, 471
- Digital imaging, for collection of missing and unidentified persons information, 304-305
- Digital photography, advantages over conventional photography, 328-329
  - basics of, 330, 331
  - digital print produced by, 327-328
  - disadvantages of, 329-330
  - for comparison techniques by computer, 329
  - for digital analysis of two-dimensional and three-dimensional evidence, 333-334
  - gaining control over images by, 328
  - image enhancement in, 333-334
  - image file size and, 330
  - images in reports and communications, 328
  - of evidence associated with bite marks, 376
  - original image quality and, 330
  - photographic distortion with, categories of, 331-332
  - correction of, 330-333
  - print quality and, 329
  - reproducibility and consistency between examiners using, 329
  - resizing of image in, 333
  - to create computer-generated exemplars of dentition, 334-337
- Digital radiography, human dental identification using, 337-338
- Diuretics, athletic competition and, 532
- DNA, double-stranded, 230, 231
- mitochondrial, 231, 233-234
- molecular arrangement of, environmental conditions damaging, 230
- nuclear, 231
- nucleotides, subunits of, 230
- DNA analysis, 229-235, 238, 254
  - and forensic science, introduction to, 229-235
- DNA evidence, dental, 246-249
  - cryogenic grinding and, 247-248
  - dental armour for, 246
  - DNA profiling and, 248-249
- DNA matching, as identification of human remains, 297-298
- Domestic violence, 353-357
  - abuse, and neglect, role of dentist in recognition and reporting of, 343-363
- Down syndrome, dental disease in, 446
- Dreaming, drug-induced alterations in, 859
- Drill(s), handpiece of, 190, 193
  - high speed, development of, 192
- Dystonia, oromandibular, 662
- Eating disorders, cultural distinctions in, 491
  - dental management in, 504-509
  - emergency dental care in, 504-505
  - in female athletes, 534-537
    - consequences of, 535
    - treatment plan for, 536
  - in women's oral health, 491-511
  - medical history taking in, 504
  - oral health and, 438-439
  - oral manifestations of, 498-504
  - preventive dental care in, 505-507
- Education, dental, women's health issues and, 487
  - patient, in eating disorders, 505
- Elder abuse and neglect, recognition of, 357-359
  - reporting of, 360-361
  - statistics on, 359, 360
- Electroencephalogram, sleep, and sleep stage, clinical use of, 861
  - medication-induced alterations in, 859-860
- Enamel, erosion of, in eating disorders, 498-504
  - stronger, problems associated with, 192, 194-195
- Endodontic treated tooth, clinical techniques for, 106-114
- Endodontics, 625-626
- Engineers, forensic, 218
- Enuresis, management of, 862
- Epilepsy, sleep, sleep bruxism in, 663
- Epiluminescence, of evidence associated with bite marks, 379
- Epworth Sleepiness Scale, 717, 800, 840
- Erythropoietin, exogenous, athletic competition and, 534

- Etching, acid, and bonding, 32-33  
     biologic acceptance of, 33-34
- Ethanol, 858
- Expert witness, and attorney, independent decisions and, 405  
     for each side, 404  
     role of, questions regarding, 404, 406
- Expert witness malpractice, professional liability issues and, 411-415
- Face, aging of, analysis of, 558-559
